

**WORLD ENVIRONMENTAL DAY  
(WED) 2021**

**AFRICAN CENTRE FOR ENVIRONMENTAL  
PROTECTION (ACEP)**

**THE THEME OF THIS YEAR WORLD  
ENVIRONMENTAL DAY  
IS  
“ECOSYSTEM RESTORATION.”**

**Pakistan**

**Global host of the day**

# 5 WAYS TO PROMOTE ECOSYSTEM RESTORATION

- Reforestation And Afforestation
- Wetland And Waterway Restoration
- Soil Conservation And Remediation
- Wildlife Conservation And Habitat Restoration
- Community Engagement And Education

The background of the slide is a teal color with white, fluffy clouds scattered across it. A white rectangular box with a thin black border is centered in the upper half of the slide, containing the title text.

# REFORESTATION AND AFFORESTATION

A central image shows a single, lush green tree with a brown trunk growing out of a small, green, spherical globe. The globe is set against a teal background with white clouds and a bright light source behind it, creating a halo effect.

Native tree species need to be planted to restore degraded forest organization that conduct large scale reforestation effort.

# WETLAND AND WATERWAY RESTORATION

- Protect And Restore Wetland, Rivers And Lakes
- Implement Sustainable Water Management Practices

# SOIL CONSERVATION AND REMEDIATION

Implement sustainable agriculture practices. Use cover crops, crop rotation and other valuable innovative technology to reduce erosion contaminated soil should be remediated without decay.

The background of the slide is a teal color with white, fluffy clouds scattered throughout. At the top, there is a white rectangular box with a thin black border containing the title text. In the center, there is a circular image of a green globe with a tree on top, set against a teal sky with clouds. Below this image is a teal horizontal band containing white text. At the bottom, the circular globe image is partially visible again.

# **WILDLIFE CONSERVATION AND HABITAT RESTORATION**

Protect and restore habitat create wildlife corridors  
and parks support conservation effort for  
endangered species

# COMMUNITY ENGAGEMENT AND EDUCATION

Raise awareness about ecosystem restoration importance, Engage local communities in restoration effort, provide education and training on sustainable land use practices

The image features a teal background with a white banner at the top. In the center, there is a circular globe with a tree on top. The globe is surrounded by white clouds and a bright light source, creating a lens flare effect. The word "CONCLUSION" is written in bold, black, uppercase letters on the white banner.

# CONCLUSION

Every action counts toward restoring ecosystems.

Take action, don't delay
